BECOME AN AFNIC MEMBER AND HELP BUILD A STABLE AND SECURE INTERNET

Afnic is a non-profit organisation whose members play a vital role in Internet governance. Since its creation, Afnic has brought together public authorities, domain name professionals, Internet users and concerned citizens to ensure the neutrality of a trustworthy Internet for all.

The members of Afnic discuss the association's positioning and its roadmap (registry policy, new services, technical developments and innovations, etc.), as well as key topics in connection with digital technology like Internet governance and the fight against abuse, among others.
